Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant initiated interview to discuss the status of the case and response filed June 27, 2008. SPE Morano reviewed the file and note that the response had not been entered as a response but was a proper response because it requested reconsideration. SPE Morano discussed the case at length with the inventor and outlined options for appeal, continued prosecution or allowance. SPE Morano noted that at present it was believed that the rejection was believe proper for the reasons set forth in the Office action and discussed at length in the previous interview and that absent further action a final rejection would be issued. Applicant asked for assistance and agreed to take the allowable subject matter indicated in the Office action. SPE Morano agreed to re-write the allowable claims 10, 11, 13 and 14 in independent form and correct the minor formalities noted in the Office action so as to pass the case onto allowance. It was noted that the examiner's amendment would require a fee for 1 additional claim since upon re-writing the claims there would be a total of Four and the initial filing fee only covered up to three. Applicant agreed to send in the additional claim fee, and SPE Morano indicated the case would be allowed upon received that fee. .
